

EcoWorx Backing

100% Recyclable, PVC free, Fiberglass Reinforced Modular Tile Backing System with recycled content.

Features & Benefits:

- EcoWorx is a Cradle to Cradle product and the industry's first sustainable, non-PVC tile backing system.
- EcoWorx outperforms traditional PVC backing, offers cost and installation benefits, and features unsurpassed environmental characteristics.
- Superior delamination and edge ravel strengths to PVC.
- Easy to install – Lightweight design.
- eco*solution Q combined with EcoWorx contains 40% recycled content, contributing to the USGBC's LEED certification standards.
- 24" x 24" tile size provides installation efficiency
- Fiberglass reinforcement for unmatched dimensional stability
- Performance pre-coat for maximum tuft bind & moisture resistance.
